

Summer Undergraduate Research in Mathematics at UNI

Looking for a more interesting summer job?

The UNI Mathematics Department has funding for two students to do faculty directed research projects over the summer of 2017. Applications are due by March 2nd, 2018.

- Eight weeks of individual research under the direction of a faculty member.
- Stipend of \$3000.
- Presentation at the UNI Summer Research Poster Session in early August.
- Opportunity to do research in mathematics, math education, or statistics. You can choose from our list of ideas or propose your own project.
- Open to all students with a declared major or minor in any Math Department program.
